Surplus Bullion Recovery (FY 1942 - Jan 1960)

MEMORANDUM

November 24, 1954

Mr. Riemer

Mr. Collins

There has been some confusion in the numbering of "Surplus Bullion Recoveries", in that we have several types of such recoveries. These include the following:

- (a) Recoveries in the Deposit Melt Room proper.
- (b) Recoveries from waste, clean-up, paper, bags, etc. in the Weigh Room.
- (c) Recoveries from the Sweeps Cellar which result from treating ore grindings, etc. from the Deposit Melt Room, and are not reported periodically. (This operation is a continuing process).
- (d) Recoveries of precious metals from Unclaimed Deposits.

The first two (a) and (b) are quarterly recoveries from the two locations specified and should properly be numbered in consecutive order, unless there is an intervening recovery from one of the other sources mentioned. Deposit Melt Room and Weigh Room numbers should correspond.

The third Item(c) represents recoveries made from time to time in the Sweeps Cellar, which is a continuing process. As all material so recovered from the Sweeps Cellar and credited to this Division, originates in the Deposit Melt Room, no identifying number other than the next Surplus Bullion Recovery number is necessary. (No "Deposit Melt Room" number should be assigned). After the wording reading "Character of deposit" on the Melter's Deposit Card, instead of writing "sweep cellar recovery", the wording "Surplus Bullion Recovery" should be written, followed by "(Sweeps Cellar)" in parenthesis. Thus: "Surplus Bullion Recovery (Sweeps Cellar)" This will clearly identify it.

As to the fourth item (d), this is an occasional recovery and should also be designated as "Surplus Bullion Recovery", receiving the next Surplus Bullion Recovery number, but also showing the "Cashier's Miscellaneous Assay" number, if there is such a number. This is only for the purpose of cross-reference and identification.

By the above rule, Surplus Bullion Recoveries, of whatever nature, will be numbered in consecutive order.

A. L. Philippus,
Cashier

MEMORANDUM

June 22, 1955

GRAINS BARS

After June 30, 1955 GRAINS BARS will be billed as to weights on the Master Records, AT THE ACTUAL BAR WEIGHTS and not at the Bar, plus grains, plus samples weights.

Under this procedure, the Melting & Refining Division will be charged with the bar weight ^{plus samples} only, since they already have received the envelopes containing the grains, ~~and samples~~. This is in harmony with the procedure with respect to regular deposits.

The grains (of this bar) will go into
Next Month's Grains Bar.
